WORLD AID ORGANIZATION FOR HUMAN RIGHTS was founded in the light of violation of human rights worldwide. These injuries transgress spirit, intention and article for all human rights of the UN-Human Rights Commission Charta. This first document was ever ratified from the community of countries. Surveys demonstrate that most people have only a defined understanding for human rights. The declaration includes all rights within various articles which establish the basis for a culture, whereon all humans rejoice in liberties for which they claim for.

WORLD AID ORGANIZATION FOR HUMAN RIGHTS is a registered non-profit-making organization with international co-operation partners.

The president of the WORLD AID ORGANIZATION FOR HUMAN RIGHTS is Jürgen Ludwig Prince of Hohenlohe.

4 years ago Prince of Hohenlohe and his wife became victims by the judicial authority because of not observed human rights. They were wrongfully imprisoned for 10 months; without any kind of verification, but only due to predications. **VIOLATION OF ARTICLE 8, 9, 10 and 11.** However, 4 years later the prosecution recognized after having examined the case that all accusations and statements had no restricted background at all. Imagine, after 4 years the prosecution recorded the written declaration, and really clearly without „ifs and buts“. A clean acquittal! You may compare this behavior with an **INQUISITION** of the **Middle Ages** (Tribunal del Santo Oficio de la Inquisición).

This also was a reason for Prince of Hohenlohe to establish the activity **WORLD AID ORGANIZATION FOR HUMAN RIGHTS.**
